List of List of Planning Division Approved Biological Consultants who are Qualified to Work as a Lead Writer for Restoration Plans

The list below includes the biological consultants who are qualified to work as lead writers for Restoration Plans. The list also details what types of Restoration project types these biological consultants are qualified to work on. Note, only these names listed below are qualified to work on Restoration projects in the unincorporated County of Ventura. Biologists that complete Restoration work and are not included on this qualified list may have the work product rejected by the Planning Division and that work will have to be redone with a qualified biological consultant approved by the Planning Division and is on this list. For additional questions about the Planning Division's Qualified Biologist Program, please visit, vcrma.org/en/biological-report-procedures.
