For projects located within the coastal zone, no fee will be charged for appeals of a project that is appealable to the Coastal Commission, unless the Coastal Commission approves an ordinance amendment authorizing a fee, per the California Coastal Act. If the Coastal Commission authorizes a fee, said fee would be a \$1,000 deposit/billing limit. If the appeal is related to a violation, the is no billing limit.

 $\begin{array}{l} \dot{\Box} \wedge \dot$ 

- Z[ } a \* ÁX | æ } •: Pursuant to the Ventura County Non-Coastal Zoning Ordinance (§8111-2.2.f), the Ventura County Coastal Zoning Ordinance (§8181-5.1.e), and the Ventura County Subdivision Ordinance (§\$8205-6.3, 8209-1, 8210-1, and 8211-2.1), an application for any of the following shall not be processed if a violation of Division 8, Chapters 1 (Ventura County Non-Coastal and Coastal Zoning Ordinances) or 2 (Ventura County Subdivision Ordinance), of the Ventura County Code exist on the subject property, unless the acceptance of the application is necessary to abate the existing violation: new entitlement; time extension of an existing entitlement whose initial term has expired; subdivision; or, zone change. An application for a discretionary entitlement, subdivision, or zone change shall not be accepted for processing if a Notice of Violation is in effect on the subject property—unless the discretionary entitlement, subdivision, or zone change is required in order to abate the violation that is the subject of the Notice of Violation.
- <u>Qh\* adAŠ[ or KAPursuant</u> to state law [Government Code, §66499.30(a) and §66499.30(b)] the Ventura County Non-Coastal Zoning Ordinance (§§8101-3.4 and 8111-1.2.1.1.f) and the Ventura County Coastal Zoning Ordinance (§§8171-4.4, 8175-5.1a, and 8181-2), a discretionary entitlement can be approved only for projects that would be located on a legal lot. In addition, pursuant to the Ventura County Subdivision Ordinance [§8209-3(a) and §8210-3(a)], lot line adjustments and certain voluntary mergers can only occur with legal lots. For more information on how to determine if a project site would be located on a legal lot, please seehttps://vcrma.org/en/legal-lot-program.
- Caæ a[ } ^aÁ Y æ \[^i A Y ^|| KÁ Pursuant to the County of Ventura's current Groundwater Conservation Ordinance (§4819.A), if an abandoned water well exists within the proposed project area, you must obtain a well destruction permit from the Ventura County Watershed Protection District and destroy the well, prior to submission of an application for a discretionary entitlement, subdivision, or legislative action. In addition, an application for a discretionary entitlement, subdivision, or legislative action shall not be accepted for processing if a Notice of Non-Compliance is in effect on the subject property—unless the discretionary entitlement, subdivision, or legislative action is required in order to abate the violation that is the subject of the Notice of Non-Compliance.

Qãa ÁÚC å ÁÓA [[\* & AÓA [[\* \* ACA ÓE • ^• • • { ^} & ÉPrior to hiring a biologist that is not on the list of Qualified Biologists, it is recommended that the biologist contact the Planning Division in order to demonstrate their qualifications and to get a copy of the Planning Division's ISBA formatted report. Failure to demonstrate the biologist's qualifications and/or not preparing the ISBA in Planning Division's format will result in costly peer reviews and the need to reformat the ISBA. After the first survey, the biological consultant will know whether any focused surveys for special-status plants or animals are necessary to complete the ISBA report. It is important to note that, if focused surveys are necessary, these surveys are often restricted to a specific time of the year. For instance, botanical surveys are conducted during the blooming period, which is typically in the spring. It is particularly important to start the biological surveys early in the planning process to provide time for any necessary focused surveys and to design the project to avoid impacts to significant biological resources. Avoiding impacts to biological resources can save time and money during the environmental review and permitting process.Á

- <u>Ù^</u>}•<u>axa</u>^<u>Á</u><u>Ú</u>|<u>ax</u> <u>cÁ</u><u>Ù</u>" | <u>c^</u>^• <u>K</u>ÁProjects that are located within areas of intact/pristine native vegetation and, consequently, have the potential to adversely impact endangered, threatened, or rare plant species, plant species that are included on the Ventura County List of Locally Important Species, or California Native Plant Society listed species, will require the preparation of a sensitive plant survey by a qualified biologist. The sensitive plant survey must be conducted during the flowering period(s)—typically springtime—of the species that are likely to occur within the project site. The sensitive plant survey must be conducted prior to completion of an Initial Study for the project; therefore, unless a sensitive plant survey has recently been conducted on the project site, the preparation of a sensitive plant survey could delay the processing of your application. For more information on the rules, regulations, and procedures for analyzing potential impacts to biological resources, please see:https://vcrma.org/en/biological-resources.
- Overlay Zones: Specific standards have been developed for areas that lie within an overlay zone. Projects located within such zones will be required to demonstrate compliance with applicable regulations of Article 9 of the Ventura County Non-Coastal Zoning Ordinance and with Section 8173-13 of the Ventura County Coastal Zoning Ordinance.
- Öæ\ÁÙ\^ÁŠā @ā \*ÁÜ^\* |æā } •ÁÇUæÁXæ|^^DÆProjects that are located within the Ojai Valley Municipal Advisory Council (MAC) boundary are subject to specific outdoor lighting regulations, the intention of which to be able to protect the view of night sky and stars, minimize light pollution, protect against direct glare and excessive lighting, provide standards for efficient and moderate use of lighting, and promote energy efficient outdoor lighting. Projects within the Ojai Valley MAC boundary that include any new installation of outdoor lighting or replacement of existing outdoor lighting will be required to demonstrate compliance with Section 8109- 4.7 of the Ventura County Non-Coastal Zoning Ordinance, and may require the submittal of a lighting plan.

## **Section II - Checklist of Requirements**

- **□** Discretionary Entitlement Application Plans
- **☐** Subdivision Maps
- ☐ Parcel Map Waiver Sketch Maps

County of Ventura • Resource Management Agency • Planning Division 800 South Victoria Avenue, Ventura, CA 93009 • 805 654-2478 • <a href="https://vcrma.org/divisions/planning">https://vcrma.org/divisions/planning</a>

#### ="5" G]hY'D'Ubg#DfY']a ]bUfm; fUX]b[ 'D'Ubg

#### OEI1 lã Basen alacc Á

The following checklist outlines the submittal requirements for site/preliminary grading plans for discretionary land use entitlement (e.g., Planned Development Permits and Conditional Use Permits) applications. If your project requires the approval of a discretionary land use entitlement, you must submit a site/preliminary grading plan that meets the requirements listed below.

If your project only involves a subdivision (e.g., Tentative Tract Map or Tentative Parcel Map) and does not require an accompanying discretionary land use entitlement, you do not need to submit a site/preliminary grading plan; proceed to either:

- ➤ÁSection II.D if you are applying for a Tentative Tract Map or Tentative Parcel Map; orÁ
- Section II.E if you are applying for an Environmental Subdivision or a Mobilehome Park Conversion Subdivision.A

HĀThe land use and zoning designations may be obtained from the Planning Division Public Counter. Alternatively, zoning designation information is available on-line at: https://vcrma.org/en/what-s-my-zoning. Land use designation information is available in the Ventura County General Plan Goals, Policies and Programs (2020, Figures 2-4 and 2-5), which is available on-line

For projects located outside of the coastal zones, see the definition of "gross lot area" and "net lot area," in the Ventura County Non-Coastal Zoning Ordinance (§8102-0). For projects in the coastal zones, see the definition of "net lot area" in the Ventura County Coastal Zoning Ordinance (§8172-1).

: c1	fa <b>U</b> hi	
1.	Copies: Submit a digital copy of the plan.	$\boxtimes$
2.	Size: Minimum of 24 x 36 inches.	$\boxtimes$
3.	Orientation: Include north arrow shown on each sheet, except detail.	$\boxtimes$
4.	Scale: Plans must be at a scale of 1 inch = 30 feet or larger. For large projects with simple landscapes the scale can be reduced to 1 inch = 40 feet if all symbols are legible, or multiple sheets can be used. Provide bar scale on the plan.	
5.	Lettering: All lettering must be legible and 1/8 inch or larger.	$\boxtimes$
6.	Page numbering: Number sheets consecutively: "Sheet of"	
7.	Simulations: Color photo simulations of the landscape must be provided for projects which could have a visual impact, including cell towers and projects located adjacent to designated or eligible Scenic Highways. Photo simulations must show the landscape's conceptual design including types, sizes and textures of plants; screening; and massing. The photos should be taken from various locations and/or angles from which the public would typically view the site. Before and after photo exhibits should be presented.	
8.	Screening elevations: Where screening will be provided by a fence, wall or vegetation, provide scaled elevations, or photo simulations, of the screening.	
9.	Note: Symbols/illustrations/simulations representing new plants should convey plant size at approximately 5 years growth.	
10.	Title block: Locate on the right-hand edge of each sheet, unless an alternative location would make it more legible. Include:

#### LEVINE ACT CAMPAIGN CONTRIBUTION DISCLOSURE FORM

You must submit this completed Disclosure Form to the County of Ventura (County) if you or your company are seeking approval of a discretionary land use permit, subdivision map or approval, or other discretionary land use entitlement (collectively, Entitlement).

Land use-related Entitlement applications are potentially reviewed and decided by the Board of Supervisors, Planning Commission, and Cultural Heritage Board. In making the disclosures below, please see the following websites for a list of these current County officials:

- Board of Supervisors (https://www.ventura.org/board-of-supervisors)
- Planning Commission webpage (<a href="https://vcrma.org/en/planning-commissioners">https://vcrma.org/en/planning-commissioners</a>)
- Cultural Heritage Board (<a href="https://vcrma.org/en/cultural-heritage-board-members">https://vcrma.org/en/cultural-heritage-board-members</a>)

<u></u>
☐ Check this box if you previously completed this form and this is a supplemental disclosure
Have you or your company, or an agent on behalf of you or your company, made campaign contributions totaling more than \$250 to a County official or candidate in the past 12 months?
□ YES □ NO
If <b>YES</b> , please provide the following information (attach separate pages as needed):
Name of each official to whom a contribution was made:
Name of contributor(s):
Date(s) of contribution(s):
Amount(s) of contribution(s):
If the applicant is a corporation, limited liability corporation, partnership, or other form of business entity, please identify any shareholder or owner that has more than a 50% ownership interest:
While your application is pending, you must submit a supplemental form for any new campaign contributions totaling more than \$250 that are made to a County official or candidate.

For projects that are located within the boundaries of the Fox Canyon Groundwater Management Agency (FCGMA), FCGMA Ordinance No. 8.1, as may be amended, requires that before drilling a new water well, a completed water well permit application must be submitted. The FCGMA "No Fee Water Well Permit Application" form is available on-line at: http://www.fcgma.org.Á

i A water bill may be used in lieu of a letter for existing service for some projects; however, please contact the Environmental Health Division at (805) 654-2830 and the Public Works Agency, Watershed Protection District, Groundwater Section at (805) 650-4083 to determine if a water bill may be used for the proposed project.

î Rease see the Environmental Health Division's "Certification of Water Quality" handout, which is available at the Environmental Health Division's Public Counter

The Rease see the Public Works Agency, Watershed Protection District, Groundwater Section, for the methodology and reporting requirements for a water well pump and recovery test.

- Buildings or structures that are 50 years or older may qualify as an historical resource, the impacts
  to which are required to be analyzed as part of the environmental review of the project.

Hu APlease contact the Planning Division Public Counter to determine if the project site qualifies as a Designated Cultural Heritage Site. You will need to present the Assessor's Parcel Number (APN) to the Planning Counter staff to obtain this information. A

Hu An accordance with State Senate Bill 1462, please respond to these questions by visiting the County of Ventura's public mapping tool "County View," located at <a href="https://maps.ventura.org/countyview/">https://maps.ventura.org/countyview/</a>. Once you have located your project's appropriate parcel, click "Parcel Report." Once the Parcel Report opens, scroll down to "Hazards" to find the subsection titled "Military Operations Area." The information presented in the Parcel Report will assist you in answering the questions

- If it is determined during the environmental review that a site has potential archaeological, tribal, architectural, or historical significance, the Ventura County Cultural Heritage Board shall be provided an opportunity to review the project to include recommendations specific to the discretionary project and identified resource(s);
- All structures and sites that are designated or eligible for designation as County Landmarks are required to be preserved as a condition of discretionary development;
- In all feasible circumstances, discretionary development projects are required to adaptively reuse architecturally or historically significant buildings; and
- Discretionary development projects are required to incorporate architectural designs and features that reflect the historical and cultural traditions characteristic to the area or community.

#### F.24. Biological Resources

Has an Initial Study Biological Assessment (ISBA) been conducted by a Qualified Biologist for this project?

Yes

No

If No, be advised that all projects that could impact sensitive biological resources must provide an ISBA with the project application. This includes projects that are located-on or adjacent-to land with native vegetation and/or trees, on land within 300 feet of watercourses or wetlands, on land used by animals for movement between habitats, or on land that provides other habitat for sensitive species. Discuss your specific project with the Planning Division staff to determine if an ISBA will be required.

#### F. 25. Protected Trees

Will any trees protected by the Ventura County Tree Protection Ordinance be potentially impacted by this project?

Yes

No

Note: Potentially impacted trees include not only the protected trees that are directly part of this request, but also any other protected trees whose tree protection zones (TPZs) are within 20 feet the limits of the construction area (including access drives and utility easements). This includes trees growing on adjacent parcels if their TPZ extends onto the subject parcel. The TPZ extends out from the trunk to 5 feet beyond the dripline, or a minimum of 15 feet from the trunk, whichever is greater.

If Yes, provide the following information.

- a. Has an Arborist Report, prepared in compliance with the Content Requirements for Arborists Reports, been submitted?
   Yes
   No (If No, please consult with the Planning Division.)
- b. Has all other required documentation per the *Submittal Requirements for Tree Permits & Authorizations* been submitted? **Yes No Unsure**

c.	Num	ber of pric	or protected trees rer	noved from th	e parcel for reaso	onable access to or u	use of property:
